Subject: West Virginia State University pollution - likely media inquiries

Mr. Pizarro –

Our law firm represents West Virginia State University in connection with pollution of the University's campus by Dow Chemical's plant in Institute, West Virginia. We'd like to inform you about impending developments in that matter that are likely to generate media inquiries to EPA; I believe Patty Hickman with the West Virginia Department of Environmental Protection may have given you some information in this regard already. Could you please give me a call today at 304-546-6038?

Best regards,

Steve Ruby
